Join the Royal Opera House for Create and Sing teacher CPD

..... no experience necessary!

These free online sessions are being promoted as part of Wiltshire Music Connect Primary Schools Conference sessions 2021

Join the Royal Opera House for a two-part virtual CPD training course exploring their [Create and Sing](#) creative learning programme (KS1/KS2). Specialist ROH drama and music practitioners introduce the programme, pedagogy and resources and will guide you through effective approaches to supporting pupils creative learning by exploring opera.

Create and Sing is an innovative drama and singing programme supporting young people's creative learning and giving voice to their creativity leading to creating opera in the classroom.

Teachers are not required to have specialist music training as the free certified training and online resources help guide you through the programme every step of the way.

[Watch their video here](#) to hear what teachers say about the programme.

Covid-19 adaptations

With many schools facing curriculum time pressures but also looking for a special, engaging and rewarding project for the summer, the training focuses on the Explorer (5-week lesson plan) schemes of work with a range of curriculum links. NB Teachers do not need to commit to running a school project this summer to attend the training; all are welcome!
